COVID-19 Update

WI and GA Stay at Home Order: L.B. White Company and Reeves Supply remain fully operational

Wisconsin issued a stay-at-home order for residents in an effort to curb the spread of the COVID-19 virus, and Georgia began requiring those at high risk of contracting coronavirus to stay at home and has ordered all bars and nightclubs in Georgia to be closed while also prohibiting gatherings of 10 or more unless the participants remain at least six feet apart.

L.B. White qualifies as an essential business as per **section 13, Part C and N of the Emergency Order #12 Safer at Home Order from the State of Wisconsin Department of Health Services** and falls in the **Critical Manufacturing and Food and Agriculture Sectors** which have each been designated a "Critical Infrastructure Segment" under Presidential Policy and Department of Homeland Security emergency readiness programs, so there will be no disruption to our business.

We are building products and shipping as normal from both our Onalaska WI and Franklin GA factories.

Further, to ensure a safe operational environment for our employees and vendors we have:

- * Limited on-site office personnel, per state/federal guidelines.
- * Modified production shifts
- * Enforced social distancing guidelines for all on-site staff
- * Eliminated all non-essential business travel
- * Expanded our already thorough facility cleaning process

As always, we will continue to update you as we receive any information that will impact your business. We remain proactive, vigilant, and committed.

Thank you for your continued business. Stay safe. Working together we will all be through this soon.

L.B. White Co., LLC
